

Harbour International Newsletter 17/08/2020

Good afternoon,

I hope you are all keeping safe and well, and enjoying a restful holiday.

As we enter the last few weeks of the summer holiday, I thought it would be wise to reshare with you the information from the Netherlands government on guidelines around holiday destinations and quarantine restrictions. It is important that all our community members follow the government guidance in order to keep everyone safe when we return to school in September. This guidance is constantly being updated and further areas and cities have been added as recently as yesterday, so please continue to check.

Further guidance and updates will be provided closer to the beginning of term.

Government Guidance

The guidance can be found [here](#) with links to the list of yellow countries (safe to travel with precautions) and amber countries (travel not advisable and possible quarantine on return).

Further details on [self-quarantine](#) are provided in this link.

Please take into account potential quarantine when planning any travel. We are looking forward to a smart start to the year with learning taking place as soon as we come back in September.

Return to School

Staff will return to school on the 28th August to carry out further learning around our new Maths scheme - Maths No Problem.

The first day for children will be:

Tuesday 1st September.

We will continue with the staggered drop off and pick up times until further notice - further details will be sent before the school term begins.
